

Dear Parents,

The last plan! It's hard to believe how fast the weeks have gone. This is not the way we hoped Juniors would finish up, but thank you for your continued support, efforts, emails and pictures since we started 'Learning at home' in March. This week we have given a few short activities to complete. We have planned a whole school 'Sports week' and the attached plan 'Sports Week Juniors Seniors' has nice activities to keep active next week. If you complete any of the activities please send us photos or videos for the school website. There may be some pages in the workbooks that are yet to be completed, these could be a wet day activity during the holidays, we will leave that up to ye.

If the Juniors would like to record a short 10 second video saying hello/goodbye to classmates, please email it to me before Monday.

**Suggested activities:**

1. **Sports week.** See attached document for daily challenges/activities. Complete them in any order you wish. We would have had a school sports day before the holidays, so we have included some classic sports day activities for you to try at home.
2. We hope your child received their postcard from us. If they would like to 'show off' their writing skills or write a reply/just say hello to us, the postcards are available for free in the Post Office, and I will give a postal address to send it to.
3. Operation Maths page 96

4. Sounds like phonics page 80, 81, 82.
5. Go outside, lie on your back, look at the clouds – what pictures can you see?

Thanks for your contributions to the baking challenge, we really appreciated your efforts. The collection of recipes and photos will be emailed early next week and put on school website.

Have a great week.

Kind Regards,

Múinteoir Áine and Múinteoir Ciara
