

## 5<sup>th</sup> Class Work – Mon. 15<sup>th</sup> - Fri. 19<sup>th</sup> June 2020

This week is going to be mainly activity based. Please post pictures of your activities as you do them. There are:

- **Baking challenges**
- **A fair-trade set of activities about coffee and**
- **\*Spring Clean**

Do what you can manage, but most importantly have as much fun with them as you can.

For School work you will have **Reading Zone unit 30** to read. The story is called “Ex Poser” and will be in the Files section of Teams. There will be one assignment each day from Monday to Thursday based on the story.

The only other class work that is needed is to complete the rest of the activities in **MSW unit 18** and learn the rest of the list words and revision list (4 each night as usual). There will be an assignment on Friday based on unit 18.

If you have not yet completed and posted your English **Writing Profile**, please do so.

\*For the Spring Clean it is not possible to do our annual tidying up of the school grounds. However, it would be great if you could do some clean up around your house, outside. Alternatively, you could do what is called a two-minute clean up while out on a walk for example. In this case though you would need to do it with an adult, using gloves and just picking up wrappers and the like, keep it simple. If you are feeling more ambitious you could do an up-cycling project. This is where you have some long-abandoned object and you turn it into something useful. For example, in a Carlow school a girl turned a rusty wheelbarrow into a flower bed. If you do anything cleaning up related, please post the pictures to Teams. These pictures will then be used for our Green Schools project.

Enjoy!
